LENSES 2025

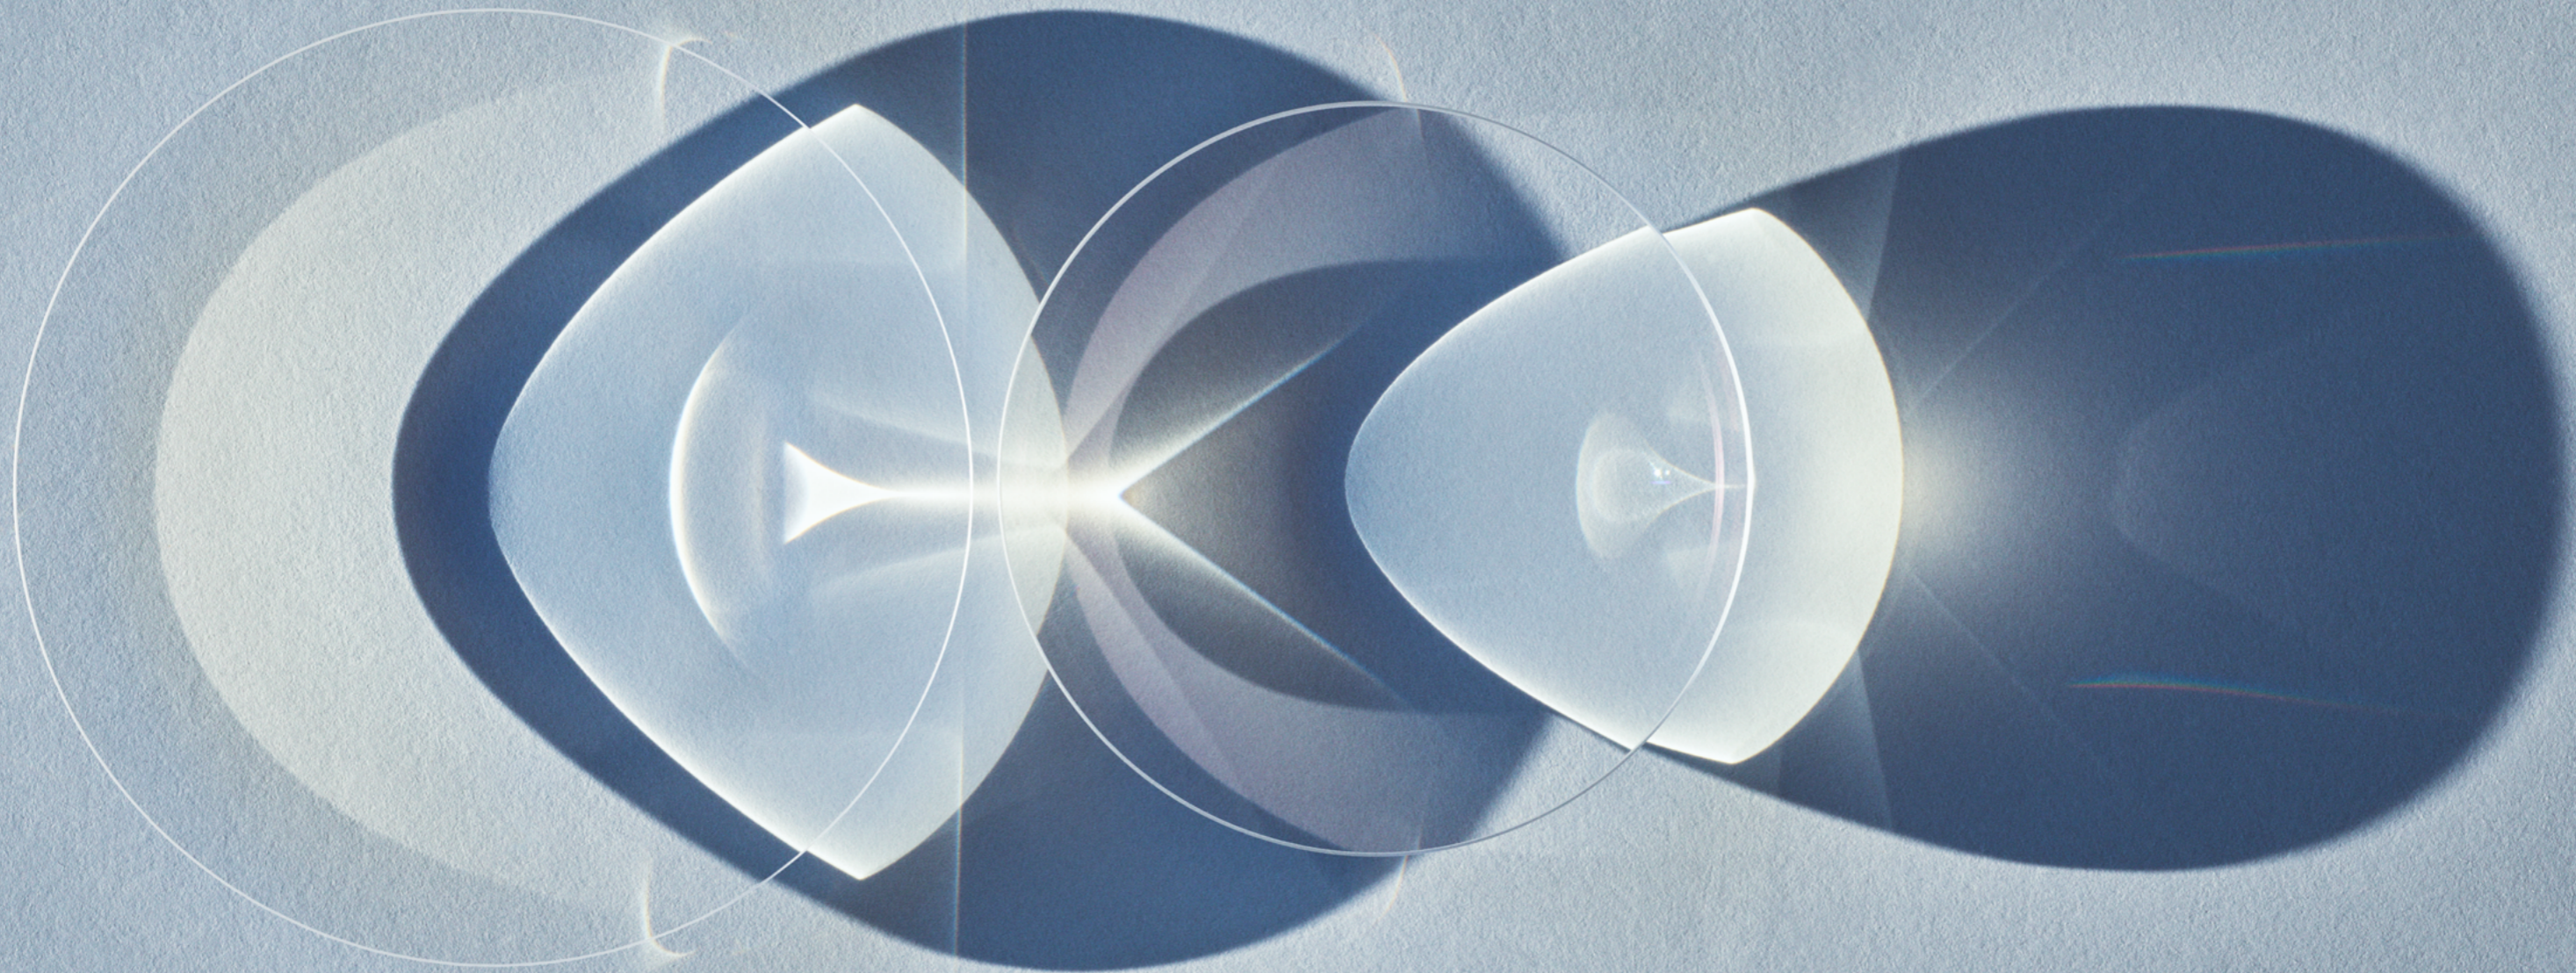

MADE IN AIZU, JAPAN – EQUIPMENT THAT STANDS THE TEST OF TIME

Sigma is dedicated to innovation and craftsmanship. Our products are engineered to exceed expectations and open new possibilities for photographic expression. Behind this commitment lies a deep passion for photography.

There are no secret formulas for what we do – only craftsmanship, forward thinking and the desire to create camera optics that stand the test of time. Every Sigma product is made in this spirit at our factory in Aizu, Japan, combining custom technology with expertise refined over decades.

With all production resources in one location, we are able to benefit from the expertise, perseverance and wisdom of our team. If there is indeed a secret to what we do, it's the skilled minds and hands that make and assemble our lenses and cameras in Aizu.

ABOUT OUR LENSES

Our lenses are organized into three distinct lines to clarify the intent and concept behind their design. These categories guide photographers in choosing the right lens without restricting their vision.

A ART

Our Art lenses are designed and engineered to provide photographers and filmmakers with outstanding optical quality and unmatched creative potential.

C CONTEMPORARY

The Contemporary line draws on the latest technological innovations to combine outstanding optical performance with compact weight and size. Sigma's Contemporary lenses are true all-rounders.

S SPORTS

Prioritizing optical performance above all else, Sports line lenses give demanding photographers and filmmakers the power and features they need to capture fast-moving subjects in challenging conditions.

– Appearances and specifications are subject to change without notice.
 – They are compatible with all functions relating to general photography.
 – AF lenses have different appearances depending on the corresponding mount.
 – The angle of view depends on camera model.
 – The minimum shooting distance is measured from the image sensor.

– The length of a lens is measured from the filter surface to its mount.
 – For further information on compatibility with your camera, please contact your nearest authorized Sigma Service Station.
<https://www.sigma-global.com/en/corporate/world-network/>

1. A gelatin filter may be inserted into the rear of the lens.
 2. Supplied. Tripod Socket TS-61, TS-81, TS-91, TS-101 are also compatible (sold separately).
 3. Supplied.
 4. Sold separately.

– Appearances and specifications are subject to change without notice.
 – They are compatible with all functions relating to general photography.
 – AF lenses have different appearances depending on the corresponding mount.
 – The angle of view depends on camera model.
 – The minimum shooting distance is measured from the image sensor.

– The length of a lens is measured from the filter surface to its mount.
 – For further information on compatibility with your camera, please contact your nearest authorized Sigma Service Station.
<https://www.sigma-global.com/en/corporate/world-network/>

1. A gelatin filter may be inserted into the rear of the lens.
 2. Supplied. Tripod Socket TS-61, TS-81, TS-91, TS-101 are also compatible (sold separately).
 3. Supplied.
 4. Sold separately.
